About Our Presenter

Amber was an elementary public school teacher for 11 years. In her eighth year, she began teaching in a 1:1 district with no previous experience with 1:1 technology. Though it was new to her, she embraced technology as a window to the world for her students and a way to connect with other educators from across the globe. She is now a Google Certified Trainer, Innovator, Seesaw Ambassador, and Future Design School Local Activator. Amber is also the founder of www.burnedinteacher.com and owner of Burned-In EdTech Consulting and Teacher Coaching. She is passionate about public education, technology as a tool for transformation in the classroom, and helping teachers to take themselves from burned-out to FIRED UP! She specializes in technology integration in the K-2 classroom and in supporting educators with the tools they need to be successful in whatever endeavors they want to pursue.
